Dear Mr. and Mrs. Rodrigues:

I have received your letter dated December 21, 1998. I have also received notification from the Children's Commission that it is going to review your complaint relating to your disagreement with the Ministry's decision not to provide individualized funding for Lovaas method of therapy for Jeremy.

I will await the results of their review before responding to the points you raised in your letter. Once again, I can't respond to comments about Lovaas treatment as this issue is before the courts.

Yours Sincerely,

Douglas Hughes,  
Community Accountability Manager  
South Okanagan Region
